UIC ASIA-PACIFIC Conference on Digital

From 14 to 15 May 2020, UIC Asia-Pacific will be hosting the Conference on Digital which will take place in Perth (Australia) at the Perth Convention and Exhibition Centre.

The challenge of the 21st Century will definitely be **Mobility**.

Megacities are facing an era of amazing development all over the world and will require to move people and goods longer and faster.

Rail has a key role to play in this mutation and has to remain the backbone of this future multimodal mobility.

The issue is global and Australia is part of the game.

Digital is the only way to win this fantastic challenge.

Digital revolution has already started two decades ago but nevertheless, we are still at the beginning of the beginning and from a revolution to another, world is evolving.

The major trends and the key words of today are the followings:

- Artificial and Augmented Intelligence,
- Deep learning,
- Internet of Things,
- Big Data,
- 5G,
- Blockchain,
- And among many others but above all: cybersecurity.

Smart rail to support transport needs, smart stations in smart cities!

During this two days event, we will have the opportunity to exchange, discover, explore, understand and learn what are the latest innovations and their potential interests and benefits for rail.

It will be the opportunity to learn from industrials and to reinforce the fruitful and necessary cooperation between Rail and the digital eco-system, that is to say Universities and all startups and their fantastic potential of innovation.

UIC Digital Platform has been created in 2015 on the three founding principles: “**Share – Open – Connect**”

During these two days:

- we will **share** between us taking profit from each other experiences, developments and projects,
- we will **open** ourselves to new technologies, innovations,
- we will **connect** with new partners and new ecosystems.

Digital is definitely not an end in itself, not an aim but only means to achieve a goal:

LET'S DESIGN THE FUTURE MOBILITY THANKS TO DIGITAL!

Programme

Thursday 14 May 2020

08h30	Registration
09h00	Opening Ceremony
